

OSPREY FLY BOX

SILVER CONE BUGGER

by Peter Chatt

About ten years ago at Babcock Fly and Tackle (*now Searun Fly and Tackle*), we were looking for a fly for spring Cutthroat in the Fraser and backwaters.

This the fly I put together.

It is in my flybox and has been used as a go to fly even before the fry come out.

Peter Chatt's Cutthroat fly box.

MATERIALS

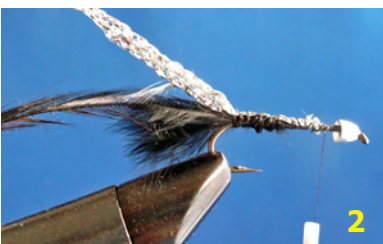

- Hook:** Mustad 9672 or equivalent - 3X Long
- Thread:** Black
- Head:** Silver Cone to fit hook.
- Tail:** Black Marabou
- Body:** Braided Silver Mylar
- Hackle:** Black Hen

TYING INSTRUCTIONS

1

Put the cone on the debarbed hook.

2

Lay down the thread base.

Tie the marabou tail on. Then, using two hands, rip the marabou to length.

Add in order the black hackle by the tip, then the silver braided Mylar.

Wrap the Mylar forward to the cone head.

Palmer the hackle, evenly spaced, forward to the cone head. Tie off.

Whip finish and add head cement.

The Finished Fly
